How much space do you need?

Requirements?

Well, I'm trying to put together a website for my new mod: Modern Warfare. (  
<http://66.227.104.254/~crimson/viewtopic.php?t=5084&start=0> )

I need to be able to post alot of pictures, a good amount of downloads, (a whole mods worth), and there will be a large amount of traffic.

Any suggestions?

I am also looking for a Web Designer for the mod. Someone who can make a cool mod site.  
Thanks.
