Crimson wrote on Tue, 09 January 2007 17:25On the contrary, BHS has recently partnered with BlackIntel. We have also been releasing Black Cell's SSAOW scripts for quite some time now. We accept help all the time, but all offers must be reviewed for their merit and not all offers fulfill a need.

The coders at Black-Intel are very dedicated towards Renegade. I often hear about new developments they have made and know there is a lot more to come! This partnership and their dedication should speed up the projects that BHS have.
 For example, RenGuard 1.04
