danpaul88 wrote on Fri, 12 January 2007 12:53There are engine calls in scripts.dll to change the PT settings, if you made a script to call those when the map loads you could easily change the PT on a per-map basis. Of course you will probably need to make your own custom scripts.dll for that...

That's right. But you need a pretty new version of scripts.dll on
every client to get it working. And 98 % of all players don't have that.
