Quote:If you think you can easily bypass/hack/whatever it when it is out, please share that
information with the coders of it as it might be fixable then.

I (more or less) asked. Please PM to me the answer. Also please tell me why you did not trust BI,
I would really like to know.
(Not trusting BI because we did not see a renguard problem is not reasonable as BI was not
involved in the renguard developement)
