Yeah, so we did a virus removal at my work (Staples Business Depot) for a customer, and look what we found:
(Anyone Ever See That Many?)

Also I thought I'd share with you What I did to setup for Vista:

The screenshot shows the AVG Free Edition - Test Center window. The title bar reads "AVG Free Edition - Test Center". The menu bar includes "Program", "Tests", "Results", "Service", and "Information". The main area is titled "Security status" and displays "You are fully protected. Your system is up to date and all installed components are working properly." with a green checkmark icon. Below this is a "Test Result" section for a "Complete Test (1/26/2007 3:59:41 PM)". The "Virus results" tab is active, showing a table with the following data:

Item Name	Item Value
Report status	Scanning completed successfully
Object summary	
Scanned	105366
Threats Found	4706
Cleaned	0
Moved to vault	0
Deleted	4706
Errors	0

On the left side, there is a sidebar with icons for "Control Center", "Virus Vault", "Help Topics", "Scheduler", and "Test Results". Below the sidebar, an "Attention:" message reads: "You can extend your protection level with Anti-Spyware, Personal Firewall or Anti-Spam!" with a link "Click here to learn more...". The status bar at the bottom shows "For Help press F1", "7.5.432", "268.17.12/653", and "1/26/2007 11:11 AM".
