Urimas wrote on Sun, 04 February 2007 03:19the desert eagle texture is in there with it its called DesertEagle.tga

Hmm... I beg to differ

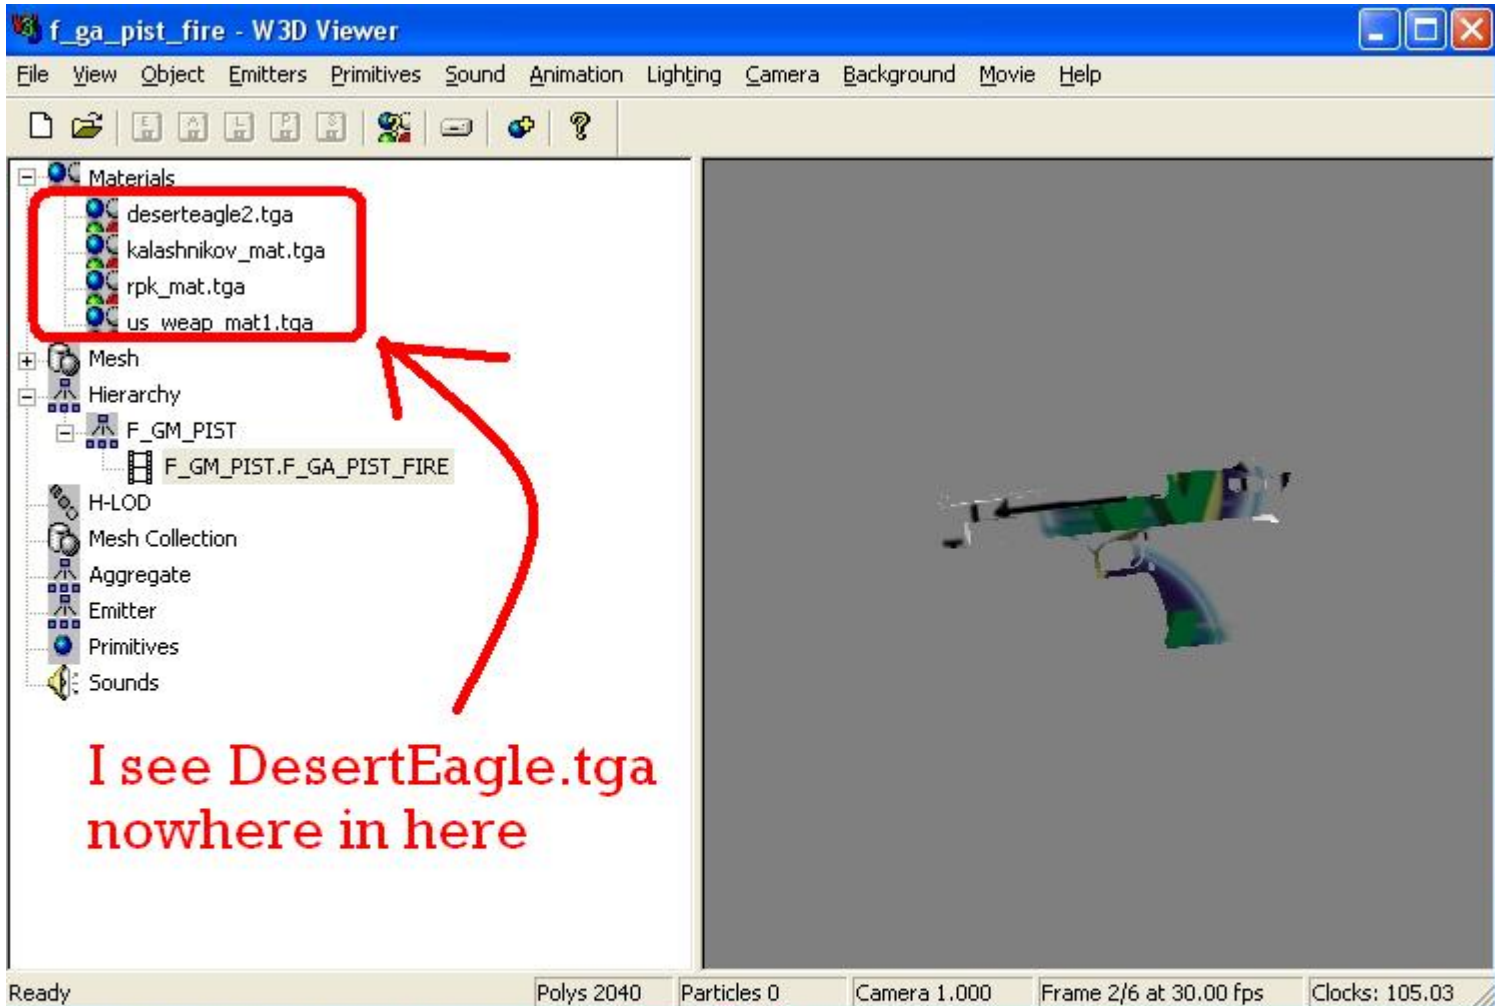

You should really include all assets of a model. And don't get me wrong, I love everything you've done up to this point, but I'd like all the textures needed to make this thing work.

And to prove I'm not the inept one here, I have a photo of everything I should need open.

I see DesertEagle.tga  
nowhere in here
