chill up, next weekend ill take some time sorting out stuff i got. including the gravgun i promised earlier.

like i told Scrin in PM, most of it is part of an unfinished mod, and i don't really feel like ripping it apart before i even got it finished and polished up.

the files below were added to my screenshot via leveledit. As far as i know there's no way to use them clientsided. At least not with rengaurd starting to cry.

Something else, imo the title and tone of this topic sounds somewhat annoyed.

Pre release shit, topic

Pre release, shit topic

Doesn't mean the possible contents will be any less cool tho.
