I paid 1200$ US with free shipping for a T7200 core 2 duo,2 gigs of ram, and a 7900 gs..I skimped on the HD (80gig) and got an external..also got a wireless N card.

Im sure you could get something pretty close for the same price now, maybe even cheaper.

Also you better hurry, startingg in a few months all Dell will carry is Vista, they are phasing out XP.

you got very badly ripped off.
