Hi all, I am looking for a way to change the color of in game private chats from Blue to something brighter like white or yellow. Anyone know

I know that you can change the font type, size, and Bold using the file
C:\Westwood\Renegade\Data\stylemgr.ini

More specifically the line
FONT_INGAME_TXT=Arial MT, 8, 0

;
; Font names follow this format:
;
; <family_name>, <point_size>, <is_bold>
;
; is_bold is 0 for false and 1 for true
;

But how do you change the color, of make it better to see

Thanks
