LOL, How many times does an OB have to charge up, before someone comes to investigate? What happens when the mines at your feet are blowing up? Guess what happens to you as you try to defuse my mines and I am beside you, shooting, whilst the OB is charging?

BOINK!!! LOL

Try playing on a 40+ server and see what happens to your tactics. It may be OK on a 4 person server but unless the team on a big server are absolutely stupid (it does happen) then your tactic wont work.

Then again, I surmise that you have only started playing the game otherwise you would not offer advice like this.
