Goztow wrote on Sun, 06 May 2007 04:46Seems like a firewall problem to me. Did you check if windows firewall is on? If so, try putting it off.

Seems like the traffic to connect is getting blocked. This often creates a 'crash like'-situation. You should launch the game in windowed mode (run wwconfig.exe and select windowed mode) so u can force it to close when it 'crashes'. This will also allow you to see possible firewall block messages.
That's what I thought, but then I read through again and read this:
mikec12321 wrote on Sat, 05 May 2007 17:14i also added renegade to my internet security allow list incase that was the problem.
