I dunno, to make powersuit kane, all i did was download gmax, activate it, use renx for ren models, import powersuit, and save it as a different new model, then rename it to kane's body parts and walla, but you wont have a sbh sniper even if you try, the stealth\_effect.dds doesnt effect snipers, only sbh themselves...and everyone else will see you as a nod sniper still, pointless to me, on the other hand...kane powersuit ftw.
