So you keep all Linux-Users out of the best Servers.

Normaly, we have the Problem that the game don't run under Linux.
But it's the first time, that a game run perfectly and the game hinders us from playing it...Why i can't edit this massage?

I made a misstake in Last sentence:
But it's the first time, that a game run perfectly and an anti-cheat-software hinders us from playing it...
