A)how can i make what char drop when it dies?
B)how can i increase the money flow and speed WITHOUT a harv?
C)in the script theres like a RA_Theif_script how do u use that?
D)ok i already asked about how to make if where you lose damage when you fall and someones said add a script like JAF_Nofalling_Damage or somthing now where do i add that script 2 ? each chars?
E)ok when i open a mutiplayer lvl file and edit it i see the buildings like wf and air and everything else i cant move it or change the options so my question is how can i move around the buildings and edit there stuff like maybe there heath or what they do and ect because all i know is theres a building and then i click to see settings and nothing happens so ya how can i add buidlings,move buildings and edit there settings like if i wanted to add a another ob on field or move it.....
F)after i somehow learn to fix my spawn points do ui have to edit the presents and save the objects file into the server dir?

please and thank you
