Show the other 20 minutes of flaming about Direct IP connecting, not running RG, and whatever else got up your ass and made you not want to 1v1 me. if you had have just accepted there probably would have been tons of time.

Even still, there was half an hour until I had to be at work, we could haev had a 15 minute game then. But you left too quickly didn't you? You took that opportunity to make it look like I was dodging.

Meh.

BTW, notice how nobody cares about your IRC logs? I can't be assed flaming anymore I have removed the shit from my signature Have a nice day dodging 1v1s.

PS. You think I've never been in a clan? I have only ever been in WOL clans. Yes, WOL! I have actually used WOI before and yes, the exact nick you see me using on this forum is NINE LETTERS LONG! it is the same nick I registered on WOL the first day I played Renegade online. I merely dont use WOL because I lost my CDkey and the Keygen ones don't let you use WOL. -.- Which reminds me, your site has a link to ones that are supposed to let you play on WOL but its broken, can you fix it? I would liek to get ahold of that one and maybe, just maybe, I could play on WOL again o.O
