....

And for gods sakes its a WAREZ site!

First off, n00bstories is antiwarez as far as I am concerned (judging form the topic name in #n00bstories on irc at the release of Generals), Not all of us agree with this (as far as being antiwarez ourselves) but we dont take our warez here. You did, From what I know its one of those rules that you should just know already.

And from IRC..
