An objects.ddb Mod, which makes gameplay more interesting, with super speed, super health, stealth Havoc's, rapid timed c4's and ramjet rifles, etc.

That comes straight from your downlaod section, and yes its a single player cheat, but what bluethen made was that too.

This is an updated version of the clear scope, which only shows the aimer, no green background, no arrows, and all those other useless things.

Oh gosh more cheats, this one for multiplayer even.

Oh and look who posted all of them! YOU! I can only conclude that you tried them all as well and might be still using them.
