ROMS ARE NOT WAREZ !!!!

Illegal games (ISOs etc) games that you can still buy in shops are illegal to distribute with no exceptions they are classed as warez. roms are games that you cant buy in shops no more cos they no longer make games for old consoles such as nes. so roms are allowed to be downloaded off sites as long as the people who have downloaded the rom own the game and delete it within 24 hours as my site clearly explains if you dont delete the rom within 24 hours its your own risk as any rom/emulation site will tell you.
