Jeep Rubi wrote on Thu, 12 July 2007 04:18Well, technically they should all be somewhere in one of the .bin files in your c&c3 directory. my suggestion would be to get a bin extractor and start rooting through.

I don't mean the images that represent the rank, but images i could put in a signature to show my rank, as well as some other stats that would require a dynamice image to show properly...
