Yes i have 2 desktop pc's. 1 with and 1 without internet at 2 different locations. and level edit wont seem to load on the one without internet. i have no idea why i tryed getting the new L.E.exe whatever and disabled visual themes even ran it in compatability for win 98. BUT IT STILL DESNT WORK if i create any new mod pakages. it will load but theres NO PRESETS AT ALL. help??
