Your own proxy can kill you aswell.
Really? How? By placing it on the front of a vehicle and them ramming someone? But that does
not count.

Well lets say you're minding your business, mining the AGT and just as you place your 6th proxy I
come running in. You will kill me and then kill yourself. Its a tactic I use when the GDI bar is down
and theres only one hottie left, wait for the player to still mining a building or something and then
run into them with my SBH.
