b) Un-tick the check box in LE for the SBH unit that says "IsStealthUnit"

That's the first thing I did when I was trying to do it. Still has the stealth on the black hand.

And this isn't for a cheat as I don't make stuff to support cheating. It's for my client-side sniper mod.

corrected =P

It's not for a "client-side" sniper mod so don't correct me. I figured out some things already so I think I got it the way I want it.
