What i predict is that even though he most likely turned off the hud, he increased the FOV to get rid of the score and whatnot.

The map is SovietAlliesTest.mix created by Eggman891. It has many edited features like, speedy characters and vehicles, nuke V2's, automammy, flying harvies etc. You can download it from the APB forums.

If you want, i can contact the recorder (One_Winged_Angel) about his technique.
