Subject: Re: New PC - Which OS?
Posted by CarrierII on Mon, 08 Oct 2007 06:52:24 GMT

Aside from one moment when I had to install XP 8 times until all the basic hardware would work. (Installed it, keyboard wouldn't work, installed it, mouse wouldn't work, installed it, keyboard wouldn't work, get the idea?) I quite like it. Grr...

What I want to avoid is having nasty problems with all my hardware etc, and of course, I want to be able to run games. Anyone got any more advice?
