Err. I'm not "ordering" the mod. My Renegade CD is scratched, so he's burning the install files onto a another CD, and sending it to me in the mail. So when his CD DOES get to me, I can get back to work on the mod for him. I already set up a training mission, and now he wants me to make skirmish missions for each game mode (kind of like multiplayer practice). So the mod will have some bot maps. Sorry dude, your going to have to wait to DOWNLOAD the mod. Right now in .rar form it's about 25MB. You guys are just going to have to wait a big longer for Sole Survivor.
