First, AFAIK we haven't released a BIATCH version which detects RoF hacks yet.

Second, if SOMEONE ELSE is using RoF then you can't see that on your client, as in, you will not see any faster firing. The only way to "see"it would be by increasng your own RoF, thus cheating yourself.

Third, your evidence of it being him sucks:
Quote:-19:24:58- (@DaN) (20:24:02) *›› [gwserv (gwserv@41184D12.BF6785DA.3F3D6C**.IP)] Found 1 results for your search, showing first 1...
-19:24:58- (@DaN) (20:24:02) *›› [gwserv (gwserv@41184D12.BF6785DA.3F3D6C**.IP)] 70.58.12*.27: (KrUmP (27/10/07), DVDs (27/10/07), FrEsH (27/10/07))

70.58.12*.27 <-- see the wildcard? that wildcard gives you about 254*10=2540 IP's that would match. Perhaps even 254*11=2794 IP's

So to me it seems you are trying to frame someone, BartgG aka SoQreal.
