@ nuke.

What I meant is that if he had posted it in the "correct" and "polite" why you described, he would of received no answer. People would just ignore the thread. Possibly one person would of come in and be like "LOL N00b!" or something but that is beside the point.

The way he posted drew people into the thread and thus he received an answer. Of course many people flamed him, but he also eventually received an answer to his question.

Think of it this way. You walk into a Bestbuy, and ask one of the workers where they sell the fish. What do you think they are going to say?
