But why is it not accetable on a computer at my house that does not connect to the internet, the problem with cheats is beacuse they effect and hurt people, when I use them at my computer at home which does not connect to the internet, it does not effect them at all. Yes I suck at Reneagde so when I do play online at a friends house I don't use them. Like I said earlier I only use them at home when I play by myself. Other than that I never use them when I play online.

P.S. My grammer sucks and I repeated myself
