1 thing I think should be added! I dont know if it means anything. He posted those ss on there site because they !aab and/or !dtrust him and he was lagging. I dont see that anywhere on any of these posts here. Now dont !aab on someone make them lag IF they have aimbot? I was just on there site there are like 3 topics on this not just 1. Its WTF, WTF2, and AM. I think its funny that eveyone if that means anything missed that. Next is in another post I read it on there forums and I think it says that BAITCH banned him for something I dont know for what. Thats all I know about it. Maybe it helps him maybe it damns him. I dont know eather way and I really dont care eather. But I think its FUNNY that if you are not in EKT and your GOOD!!!!! YOU MUST HAX!!!!!!!!!! I seen players get banned by some for the reason of: YOUR NOT THAT GOOD. I have also heard of EKTs caught HAXING on there own servers and nothing happens to them.
