Yes, I could, but not before it is proven to me that creating more of those ortho maps is any use. Making those maps takes a bit of time, and right now, I don't have a whole lot of it.

I just want to be sure that they work, one way or another. I have not really looked into it in the last few days, but last time I tried, I could not get my image to work right.

I also hate it when the forums lag out, just when I'm about to post, forcing me to rewrite my text.
