Di3HardNL wrote on Wed, 19 December 2007 14:08I ripped this tower out of mp_field.w3d (that file contains whole map C&C Field). The original name of the tower is MP_FIELD.TOWER_01 Or TOWER_01

I added a emitter to it in RenX (only 1 side yet to test), and it should look like this in renegade :: But it does only in W3d Viewer. Anyone knows the CORRECT W3d File/NAME? thankss

help him someone
