Let me settle this argument:

The US is not ready for a BLACK MUSLIM as their president. We're waring with MUSLIMS right now, and if anyone hasn't already noticed....Blacks aren't exactly the most respected group in America, or on the world scale for that matter. Picking him to be our president would mean 2 things:

1, We'd be total hypocrits. We go over to start a war with muslims, then elect one as our president. Fishy, huh?

2, Blacks aren't "equal" to whites. Despite what you may think, blacks are NOT and for quite a while will not BE equal to whites. And why? Simply because they aren't treated the same way, or looked at the same way as whites, they're still seen even TODAY as the lower genetic classes, true or not. Sure, certain black people make it to the top, but not without going through hell to get there. 90% of the people in power today are whites, and for the reason of.....RACISM. ISN'T. OVER.

I hate to break it to all of you who love Obama, but I have some news for you, believe it or not:

Obama isn't going to win. He CAN'T win. Don't you understand why he was put in the election? To make it seem like Blacks and Muslims, America's two most hated minorities, are becoming more "equal", not that he would actually WIN.

Campaigns for the most part are hoaxes, they tell you the elections are 100% fair and equal, but they aren't. Because racism isn't over, will NEVER BE over, as long as the majority of people in the country and world is White, Whites will always be the ones in power. That may make some of you angry, or think I'm a racist. I'm not. I'm just telling you the cold hard truth.

And...@ Rocko: You want to know the reason racism isn't over and will never be over? Because you haven't excepted the fact that your race isn't in power right now, and chances are, won't be for a very, VERY long time. Its not over because you make comments like, "So my people can take over". I have some news for you, your "people" as you call us won't be taking over, due to the fact that this IS a White country, and has been for the last, oh, 200 some years.

And by the way, just so I can assure you I'm not a white Supremacist, I'm Black. Yeah, that sounds pretty self-hating, but its not, its just the truth, and I've come to accept it.
