Hello, my renguard startup fine it says:

Hello, npadul30!
Connecting to server
Secure Link Established
Welcome to Renguard
Press 'Renegade' to launch Renegade
WARNING: You have modeled textures (skins) in you data folder, therefore you cannot join a pure renegade server.

Okay so I hist renegade and then it launches WWCONFIG and I hit ok and then the screen goes black and it exits out to desktop and it say "Disconnecting from Renaguard" "Renegade Terminiated"

You help would be much appriceated and welcome.
