  This C++ is gonna take me 100s if not thousands of days to learn to a good standard.

    But maybe not so long if i can actually download the f**ing thing. Lol

This part. The beginning part of his help
http://msdn2.microsoft.com/en-au/express/aa700735.aspx Download and install Visual C++ 2005
Express Edition.

Is a little harder than made out. The page has a download link. But it does not let you download
Visual C++ 2005 Express Edition. It takes you to another page that offers you to download C++
2008 Express Edition.

  Is there any way i can get the DIRECT download link for C++ 2005 Express Edition?
