OK I know this isn't any sort of eyecatcher and won't be spotted for long. But I thought, if many Countries place their Flag on Train Stations, Companies etc -why not placing it on the main Screen?

So I took the Flag of "Nederland" and here is how it will look like=

I have had a look on my Frappr Map and found only a few Countries with Pins. Noone seems to live in South America or Africa etc.

I got over 200 different Flags of almost all Countries all over the World and my Question is:

Do you want your own Flag like this and if yes, which Country do you live at?

I hope I get some replies and if so I will release a ZIP on Saturday or Sunday.
