Why is it that Starbuzz has now turned into an incredibly ignorant (and not to mention arrogant) assbat? It's fairly annoying. Well, assuming he's not just pretending to be ignorant and whatnot.

Anyways, 1vs1's DON'T prove anything. Renegade is a game about TEAMPLAY, atleast the AOW part. Now, a match in say, Duel Arena or something (Using normal infantry of course) and setting up proper 1vs1 infantry duels to test who has more "skill" in aiming is a good idea. Same with a vehicle duel and such in a normal map, assuming you don't go killing eachothers base and whatnot. But Renegade is based around teamplay, so saying that a 1vs1 proves everything shows you're an incredibly ignorant cock, and don't deserve to play this game anymore.

Also, saying MWright hasn't played Renegade is another pretty stupid statement to make. He's shown screenshots of him actually being ingame, and while I can't say he's 100% skilled as I've never played him, saying he's the worst player ever is just another ignorant statement.
