Subject: Paying for a Dedicated Server

Do you HAVE to pay to run a server on Renegade i.e. Paying for a host to run it on. Or can you run it on your own internet connection free of charge, with no monthly, yearly, daily or even one-time fees?

And if this is possible would I be able to host many players with download speed of 6 mbps and upload speed of 4 mbps (system specifications don't matter as I would use another computer to play on the server)?
