You're missing the point here.

Remember that game patches are required by ALL players, so if you patch the game and do whatever to it, EVERYONE who wants to play on that server will need said patch, and i don't know about you but i'm not installing two versions of Renegade just to play RP2.

Read, before you comment, in future.

(And to cnc95fan, read also)

Seriously, what do you have against RP2?

Nothing, nothing at all.
