iih3ro wrote on Mon, 31 March 2008 07:30I'm getting a Compal IFL90 rather soon.

WSXGA+ display
2.4Ghz Santa Rosa Core 2 Duo
2GB 667Mhz DDR2
120GB 7200RPM HDD
512MB GeForce 8600M GT
AGN WiFi
DVD Burner
2.0 MegaPixel built-in webcam
Fingerprint scanner
TPM module (I think)
Nine-cell battery
etc.
That's already more of a gaming machine, really, due to the performant video card.
