Captkurtwarranto

Remeber according to you, everyone is a narcissist. According to <http://www.dictionary.com> you are exhibiting symptoms of a superiority complex

sigh I guess the explanation that I posted 10 minutes before your last post wasn't detailed enough..So let me try to find a way for you to understand it.

Quote:Ooooooh, and so proud aren't you, you gangbang on one person, you and you're little dipshits. This is what you do to make yourself proud. Look at you. Aren't you the proud one? "I'm the one saying "Havocman, just shut the...." etc.

Who cares which one is you? Apparently you care. Notice you're the only one that gave a hoot to make sure that every one else knows which one is you? That's because of all the traits you posses the number one is your narcissi. You're a sad example of life.

Based on your firsts paragraphs structure, you tie everyone that was on Teamspeak, as well as those that heard the recording and laughed in with the same group as ACK. As for your second paragraph structure, everyone who has claimed ownership to a voice spoken on teamspeak is also in the same group as ACK. Now you may come back and say that paragraph structures have nothing to do with each other, and you're right. Exept for one thing. You tie the two paragraphs together by adding "I'm the one saying "Havocman, just shut the...." etc." in the first and continuing with that same topic in the second paragraph " Notice you're the only one that gave a hoot to make sure that every one else knows "

Now. If ACK is a narcissist for taking part and owning up to which voice was his, then everyone else who has taken part and/or taken ownership of a voice is also a narcissist. (Note: this forum is not the only place in the world for the gathering of the renegade community.) And before you go off saying that you didn't know others said anything, thats right you didn't know. So you shouldn't make assumptions when you don't know all the facts, or because you dislike someone.

now to avoid further coplications, the reason you exhibiting symptoms of a superiority complex: In another topic you called the eprofessional editors of the world narcissists because according to your agreement with someone else people who correct spelling and grammar are narcissists. As explained above, you have also labeled everyone who has even laughed at this recording a narcissist. Ok, I agree it may not be "everyone" in the world, but your still trying to raise yourself above an awful lot of people.

Edit: If further explanation is required, simply say so and I'll try to find yet another way to explain it to you. :rolleyes:
