They did a good job with the C&C campaign, in my opinion, including Havoc, the Dead-6, CABAL etc. However, in all their games I've played the multiplayer has been at least a bit annoying at some point. I stopped playing C&C3 multi because it was unbalanced, and apparently they've only recently patched that up completely, and I stopped playing BF2142 multi because a) I installed the beta 1.4 patch, then had problems getting back to 1.2 or whatever it was, and then b) when I installed the proper 1.4, it corrupted my game.

And I do think they care a lot more about money than quality. You just need to look at Renegade and what it could have been to see that.
