Yeah, that's basically my opinion about EA as well. Not all EA games suck, just their decisions.

Stuff like dropping support shortly after it's release, releasing the other half of the game in an expansion pack, dropping support for that as well, then releasing the same game with some changes/additions and adding '2' after it's name, then making an expansion pack for that.

THAT is basically why EA 'sucks', but if you look at the 'complete' game, it's really not a bad game at all. They are just trying to make maximum profit out of games by selling it in pieces, but the people still like the 'complete' game, whether they hate EA or not.

But, as a true Renegade player, the most important reason as to why I don't like EA is what they've done to Westwood, end of story.
