Rick wrote on Fri, 04 April 2008 09:26Madrockz your style of writing conveys an image that you are a pathetic individual who has trouble passing 3rd grade English. You have failed miserably to bypass the host ban because you are to stupid to figure out how too. There is only one way possible to bypass it, and for the sake of the other players I shall not disclose it here. You also seem to not understand the difference between IP addresses and DNSs. I have grown tired of you trying to act "1337"ish by posting a bunch of nonsense bullshit trying to impress other people on these forums.

Now go sit in a corner and cut yourself, reflecting to your pathetic life of shame and no friends, you sad excuse of a person with no significant purpose on this earth whatsoever. Hopefully you'll cut so deep that you die from loss of blood and/or infection. Also consider playing "Chug the cyanide" with yourself and that piece of lint that lays on your desk, whoever swallows the most in 30 seconds wins!

HAHAHAHAH. What a classic post!
