They are not trying to please the fans whatsoever if they did they would not keep a game secret up to the point where it was almost done and they were not going to change anything, lately EA has been doing that a lot they keep a game secret allowing no fan feedback and then just say pretty much when they announce it "If you don't like it too bad we're not changing anything!".

Final Statement EA SUCKS!

Dead on, one or two screenshots get leaked and then BAM, game is out.

No input, no changes. WTF is with this "Tiberium" game and the control point gameplay...It's Command and Conquer people...keep that gas ass crap in Warhammer.

Company of Heroes is the only game I've ever enjoyed that had the control point system and any FPS based around that will be terr-orable.
