I absolutely fucking hate Hillary Clinton, but I'm not going hit her over the head with a crowbar (if I even could)... no matter how much I want to or think she deserves it.

I would, but then I'd go to jail. Oh well.

Anyways, to be honest spoony, while blindly bitching about EA IS retarded, Oblivion has many reasons to bitch about EA.

They're a mega millionare company... Why do they need even more money? You'd think, that with more money, they'd be able to deliver quality games that people will buy. However, if people keep buying shitty games, then they'll shrug it off as "who cares, lol, less support we have to do for it then".

However, if very few people buy their products because they're shitty, their income would lower. So if they're intelligent in any meaning of the word, they would start increasing the quality of their games, aswell as stop buying out EVERY company on the market and ruin their games.
