To comment on the entire top of your post: "Actually read my replies." It's hard to say that I haven't refuted anything when you actively admit that you didn't read anything. Of course I didn't refute anything in your eyes because you didn't read it.

"stealing games < making games some people don't like
actively attacking a company just because you don't like their products < making games some people don't like"

How is this not opinion?
