-DM-Karandras wrote on Sat, 10 May 2008 00:07I think Canada stole it off Scrin, who stole it off someone else, who stole it off this guy, who stole it off..

Well I don't think we know the person who created the original.

I got the HUD data from Scrin, then made my own and released it so people would stop waving their cocks around showing off their unique HUDs. Now everyone can have one.
