I have had many funny moments in Renegade. My definition of a funny moment in-game is when what you see and what you do makes you LOL hard like hell at your monitor.

If that's the case, then my funniest one would be on Islands as Nod. GDI had only Ref left and 1 Med and 2 Mammoths. Base was well mined but I managed to creep in as SBH. Both Mammoths were being repaired (lol)...I came and hijacked one, killed the other repairing driver with missiles and blew it up. Then I killed the Med and I got destroyed as well. LOL...I was laughing so hard I thought I was going to get a heart attack.

My monitor screen was full of spittle after the deed LOLS.

EDIT: Doesn't sound so funny and interesting in words.
