Many people have asked me to run my server 24/7. I would love to do that, but I can't that since Renegade uses a lot of bandwith and my internet connection is usally in heavy use by the other people in my house hold, during the day that is. So I will try to run the server when ever I can, it usally will be up about 9PM Central time(-6). Server stats are at yano.com They are some what up to date.
Basic Stats

[list] 10players
All maps but glacier[/list:u]
