If two players are ingame and one has negative score (I have not tested with positive score), and the other has nothing, and the player with no points leaves, that team will receive the negative score.

I.E:

[http://desertelites.com/Stewie/images/dc\\_glitch\\_2.png](http://desertelites.com/Stewie/images/dc_glitch_2.png)

A fix for this should be added to Scripts 4.0.
